Part B. CV SUMMARY (max. 3500 characters, including spaces)

Senior Researcher in the Department of Social Anthropology and Social Psychology of the Complutense University of Madrid, and Visiting Professor at Yachay Tech and University of Valle d'Aosta. I have built a solid and international research network during my career working in seven countries in the last fifteen years. My career up until now has proven that I have an active international and interdisciplinary profile. During my Ph.D. in Social Psychology (2009) at the Autonomous University of Barcelona under the direction of the Professor Lupicinio Iñiguez, I was visiting scholar at Georgetown University, University of Manchester, and Manchester Metropolitan University collaborating with the Professors Rom Harré, Ivan Leudar, and Ian Parker, respectively, thanks to the scholarship "Formación del Profesorado Universitario – FPU" of the Ministry of Education of Spain. I have been visiting professor at the University of California, San Diego thanks to the invitation of the Professor Christine Harris, and Universidad Michoacana de San Nicolás de Hidalgo, thanks to Scholarship for Young Professors and Researchers of the Banco Santander. I was a postdoctoral researcher at the San Diego State University, Charles III University of Madrid and the Autonomous University of Madrid, by Paulo Freire Innovative Technology Post-Doctoral Visiting Scholar, Alliance of 4 Universities, respectively. I have been Invited Professor at the University of Bergamo, University of Aosta Valley, and University of Helsinki as a Professor in Summer School Course "Emotions and Interculturality". Ministry of Research and Technology of Ecuador offered me a Prometeo Postdoc position at the Salesian Polytechnic University. From 2014 to 2019, I was Full Professor in the Department of Social Sciences and Innovation at Yachay Tech.

My research is focused on understanding why emotions have a strong relationship with language and how it is possible to express these emotions in online/offline spaces, and professional and innovative contexts. I presented at 131 international conferences and seminars, some of them as invited speaker, and published 89 papers, book chapters, and scientific reviews, in four languages on the topics of Social Psychology, Innovation, Emotions, and Communication Technology.

I am head of YT-IN Research Group and I coordinate the work of six Ph. D. researchers, eight graduate students, and 18 undergraduate students. I am the principal investigator in my institution of the H2020 project "EULAC Focus – Giving focus to the Cultural, Scientific and Social Dimension of EU – CELAC Relations". Also, I lead the research project "Innovation in Science and Technology" funded by Ministry of Science and Technology of Ecuador and the "Blue Lights" project funded by Ministry of Interior of Ecuador to improve the perception of security in Ecuadorian cities. In the last three years, I am also participating in two Erasmus+ projects to support the modernization, accessibility, and internationalization of higher education in the Partner Countries of these two grants. I have been the recipients of multiple grants and awards for a total of over 220.000 euros.
